

THERMOSET RUBBER GROMMETS

Round Type Design

FEATURES

- ▶ Protects wires and cables against abrasion damage from sharp panel edges.
- ▶ Perfect for electrical insulation and mechanical damping.
- ▶ Durable yet flexible Thermoset rubber is used for its resistance to oils, fuels and other chemicals.
- ▶ Better cut and tear resistance compared to thermoplastic rubber grommets.
- ▶ Circular shape for ease of handling and installation. No tools necessary.

Part No	Cut Out Hole	Panel Thickness	A	B	C
5100	0.437	0.093	0.625	0.312	0.312
5101	0.250	0.063	0.344	0.187	0.125
5102	0.375	0.063	0.563	0.250	0.250
