1

Create a free account for your company at **GetSmartCert.com** (instructions on next page)

2

Cert packages from your suppliers will be automatically added to your company's **Received Dashboard**

3

**Digital approvals,** redactions, and adjustments to certs for your customers are just a click away!

CLICK HERE TO LEARN MORE AT SMARTCERT.TECH/HELP-CENTER

Getting started is easy!

1   GO TO GETSMARTCERT.COM AND CLICK SIGN UP

Create and log in to your account with one-click access using your Microsoft or Google work account OR enter you email, first & last name and set a password.

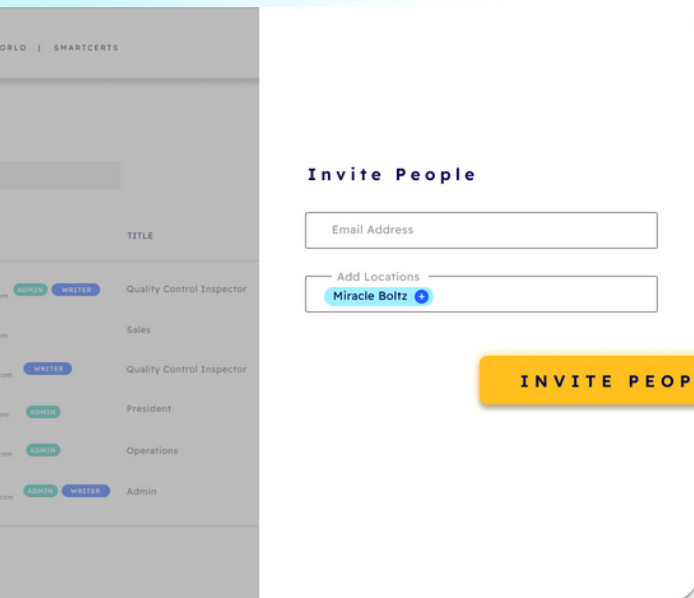

2   CREATE YOUR COMPANY

In order to automate inbound SmartCerts, you'll need to create your company account or join your company if there is an existing account. Simply follow the prompts in SmartCert once your email has been verified.

3   ADD YOUR TEAM

Invite your team members to your account by clicking on your company name next to the SmartCert logo.

If you haven't created your account and received an email to view certs on SmartCert from your supplier, simply click the invitation link in the email to create an account. The SmartCert will be available on your Received Dashboard.

All future SmartCerts will automatically be delivered to your dashboard and a daily summary email will update you on what's been received.
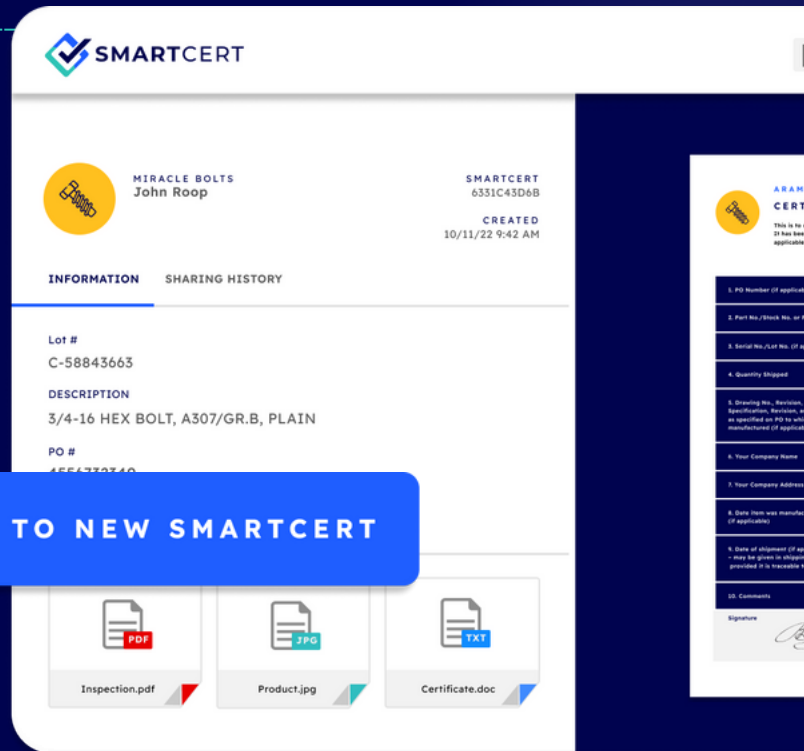

Be sure to add @smartcert.tech to our safe sender list so you don't miss these notifications!

④ Copy information and documents from a received SmartCert to build your inventory on your Created Dashboard and send certs to your customers.

WITH SMARTCERT'S DOCUMENT PROCESSING TOOLS, YOU CAN:

1. Digitally review, approve, and sign certs from suppliers
2. Redact supplier information for use with your customers
3. Add or remove pages to your cert package
4. Generate new certs
5. Use our C of C template or build your own
