

Duplex

REUSABLE SCREWS

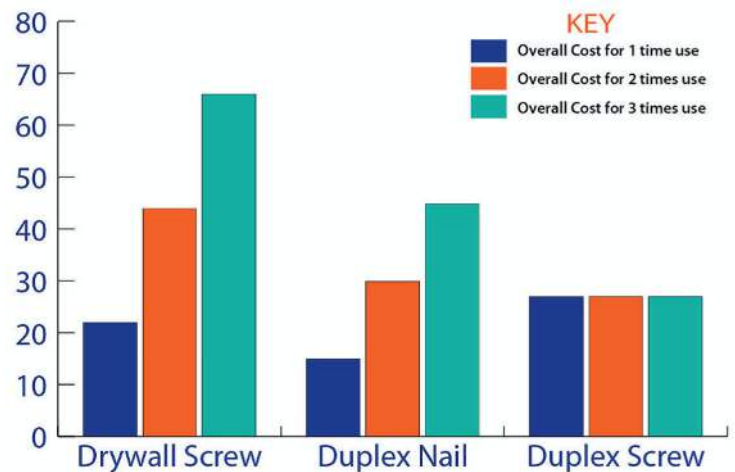

Never lose your screw again! The revolutionary Duplex Screw® makes it easier to hold your projects together, but more importantly, remove your projects faster and easier than ever before. Duplex Screws® save you both time and money.

DUPLEX SCREW COST SAVINGS

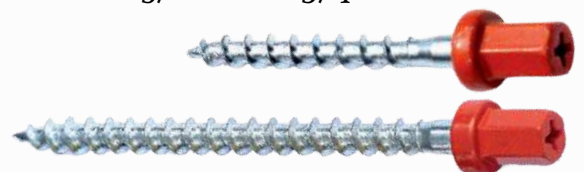

Duplex Screws® cost slightly more than regular screws or nails. The major advantage is that Duplex Screws® can be used multiple times with less effort, resulting in greater savings, while eliminating the risk of injuries that are common with other fastening methods.

DUPLEX SCREW BENEFITS

- Out performs by saving time & money
- Multiple re-use = cost savings & less waste
- Fewer injuries
- Secure bit: snug fitting & no slipping
- Easy to find: bright orange head

Sizes: 1 5/8" and 2 3/4"

Ships in 10 lb. and 25 lb. boxes

REUSABLE SCREWS

DUPLEX SCREW SAVINGS

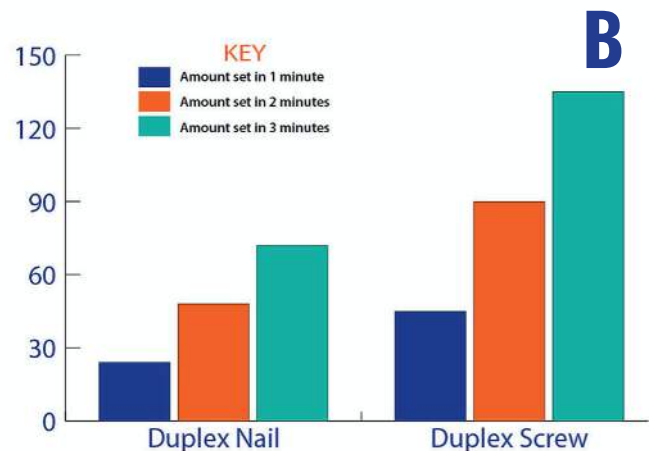

In graph A, we show results from a pair of form setters installing a 50 x 50 lineal foot structure using duplex nails in an eight-hour period. That same crew would accomplish the same amount of form work using Duplex Screws® in just six hours. This time savings continues when the form removal process begins.

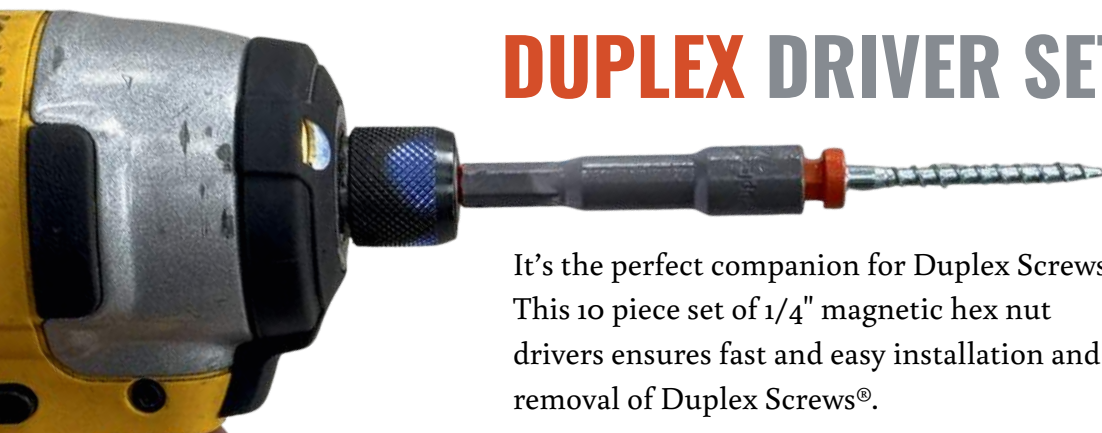

In graph B, we show the results from a one-minute timed test. It shows how many Duplex Screws® versus duplex nails could be set in that time frame. A difference of 47%!

DUPLEX SCREWS
45 set per minute
VS.
DUPLEX NAILS
24 set per minute

DUPLEX DRIVER SET

It's the perfect companion for Duplex Screws®!
This 10 piece set of 1/4" magnetic hex nut drivers ensures fast and easy installation and removal of Duplex Screws®.
